Political Campaign Readers, direct from political party or through advertising agencies (no discount for plates) per line 20c

Notices of marriages, births and deaths, and cards of thanks, each \$1.00

All classified and transient advertising must be paid in advance.

THURSDAY, MARCH 4th, 1926

RUSSIA'S SPIRITUAL BANKRUPTCY

Reports from Moscow tell of great herds of vagrant children banding themselves together for purposes of thievery and pillage. At Kharkov, says the despatch, small armies of these children had to be repelled by the militia.

Russia has sown violence and she will reap violence. Communism has wrecked Russia financially, socially and culturally. But the most evil of its products is the crop of children growing up, steeped in the doctrine of bloodshed and armed force.

There will probably have to be revolutions to the end of human history. Oppressive systems of Government will grow up that will have to be overthrown by force. But the supreme folly of trying to institute an idealistic unworkable system for a corrupt warlike system is that it perpetuates revolution until the nation is steeped in it.

Bolshevism has killed off Russia's best brains. They will be born again. Bolshevism has thrown the country into bankruptcy. Political evolution will bring it out again.

But the spiritual bankruptcy involved in the demoralization of Russia's children is a debt that cannot be paid in many generations.

RADIO AND COPYRIGHT MUSIC

It is reported that attempts are being made at Ottawa to amend the Copyright Act that radio broadcasting stations will be required to pay an indefinite royalty on copy-right music.

Such an amendment could only have the effect of injuring the quality of programmes sent out over the air.

In the first place, broadcasting stations are not revenue-producing institutions. If they were forced to pay royalties, they would have to raise revenue. The only way they could raise revenue would be by broadcasting advertising matter. And since the public would not listen to advertising matter over the radio, such advertising would be worthless. The whole principle is therefore, unsound.

So far from injuring the sale of copyright music, radio stimulates it. Just as a new song heard in vaudeville will inspire hearers to dash off and buy a phonograph record or the music of it, so does radio add to that song's popularity.

Radio is an educational and cultural force. Its future should not be jeopardized by legislation that can serve no legitimate purpose.

HOW CUSTOMS GROW

Piled high with bowls of rich Chinese food, 412 coffins pulled out of the freight yards at Chicago last week, bound for a final resting-place in the native soil of China.

It was explained to interested reporters that the bodies were being sent back because these dead Chinese no longer had relatives in this country to pile food on the graves and thus provide food for their souls. In China, reverent hands will continue to keep the graves loaded with food and the spirits well-fed.

A thousand years ago, when this custom originated, lepers thronged each Chinese village. If food was left for them in the graveyards they stayed in the graveyards. If this was neglected, they came down into the towns.

Most of the things people do in the name of religion, are simply things they should do in the name of common sense.

THE BEAUTIFUL SEX

Nikola Tesla, famous genius of electricity, predicts that woman will soon be the dominant sex in world affairs with man relegated to the

ornamental but useless position of drones.

It is a hard proposition to swallow. Ever since those merry days when stone age gentlemen dragged their blushing and breathless brides home by the hair of their heads man has somehow felt himself to be the lord of creation.

But when you see trim, efficient young women filling positions of trust and responsibility with big business firms, cool, sane women entering the professions, women college professors and women who can still make a cherry pie taste like Olympian ambrosia, and then look out the window and see a couple of patent-haired sheiks with Oxford bags and lunacy vests walk by, you begin to feel that Mr. Tesla might know what he is talking about.

BROODING CHICKS

The following practice is followed at the Dominion Experimental Station, Lacombe, Alberta, in connection with brooding chicks. The chicks remain in the incubator for the first twenty-four hours. The second day they are transferred to the brooder house where they are reared under camp burning colony brooders. This type of brooder stove gives good satisfaction at this Station. Uniform temperature is easily maintained when the stove is operated properly. No feed is given until the chicks are four-eight hours old. Feed lightly for the first week as overfeeding causes bowel trouble. The third day the chicks are given a little fine bran, chick grit, and buttermilk to drink. From the third day until two weeks old the chicks are fed the following ration every two hours each day: Equal parts fine bran, shorts and oat chaff free from oat hulls. To this is added a small quantity of chick grit and cod liver oil. A little fine cracked wheat is fed in the litter morning and evening. Buttermilk is before the chicks all the time, and green feed is fed once a day.

When the chicks are two weeks old the following ration is used: a prepared chick scratch feed and a chick mash composed of the following: Bran 100 lb., shorts 100 lb., oat-chaff free from hulls 100 lb., corn meal 50 lb., beef scrap 20 lb., bone meal 20 lb., charcoal 5 lb., cod liver oil 1 pint per 100 lb. mash. This mash is kept in the hopper before the chicks all the time, and the scratch feed is fed morning and evening.

EARLY CHICKENS

Chickens have been hatched for two years at the Experimental Station at Rothorn from late February till late May. Of course to get chickens before the first of May it is almost necessary to use incubators as very seldom do hens become broody before the first of April. From both years it has been observed that pullets hatched before the middle of March begin to lay in July and August, then pass through a partial moult and do not begin again till late in the winter. Pullets hatched in April, however, usually begin laying in late October or November and continue to lay regularly until spring. May hatched pullets seldom begin laying before January or February and in most cases not until March. May hatched pullets seldom develop to sufficient weight for the best market for roosters which is in November and December.

If there were a good market for broilers the earlier hatched chickens could be easily and profitably disposed of in this way but in most parts of the West there is no such market.

Another objection to the February and March hatches is the greater expense of brooding due to cold weather. Then too, chickens raised inside are likely to develop leg weakness and related troubles.

All things considered it has been found that best results accrue from April hatched chickens.

LEAGUE COUNCIL TANGLE CAUSING MUCH CONCERN GREAT BRITAIN

London, Feb. 27.—Rumors were circulated today that Sir Austen Chamberlain would resign as foreign secretary because of the clash of his views with some of the other cabinet members over the question of increasing the number of permanent seats in the league council. So general were the rumors that inspired statements were carried by the press agencies denying that his resignation was contemplated.

It was announced that the matter would come before the cabinet next Wednesday when it is expected Premier Baldwin will announce the government's policy as regards the council issue.

London, Feb. 27.—The divergent views on the proposal to increase the permanent seats in the council of the League of Nations is causing much political gossip. The situation is referred to in some quarters as amounting to a cabinet crisis.

A hint in one section of the press intimates Sir Austen Chamberlain will resign his portfolio unless he is given a free hand at Geneva.

The Daily Mail, however, claims to be able to state, with assurance, that Sir Austen, "whatever his private view will go to Geneva with clear instructions from the cabinet that it is essential at this time to give the fullest consideration to the wishes of Germany, lest the work accomplished at Locarno should be undone."

It is reported that if Poland, Brazil and Spain are given permanent seats in the council, China and Persia, will demand like action for them.

Italy's Position

Paris, Feb. 27.—Premier Mussolini of Italy, believes that, "geographically and politically, Poland is entitled to a seat in the League

of Nations council at the same time and not later than Germany."

He made this known during an interview with Albert Julien, special correspondent at Rome of the Petit Parisien.

Poland's geographical position, with 30,000,000 people, 24,000,000 of whom were of Polish race, Mussolini declared, demanded that Poland participate equally with Germany.

He then spoke of the "menace of pan-Germanism which remains to trouble Europe," saying:

"These people have not forgotten we have not resigned ourselves, have not abandoned their dreams of yesterday."

Speaking of Franco-Italian relations, the Fascist leader said: "This Latin bloc will act as the greatest counter-balance in Europe in the prevention of wars."

ALEX WALKER CHOSEN HEAD WAR VETERANS

Red Deer, Feb. 26.—For his third successful term, Alex Walker, of Calgary, was unanimously re-elected president of the Provincial Command of the Alberta Great War Veterans' Association at the closing session of the annual convention here on Thursday afternoon.

W. J. Hill was elected first vice-president, Dr. W. J. McKenzie, Red Deer, second vice-president, and Dr. G. H. Wade, Hanna, Dominion representative.

The convention approved of the suggestion to increase the strength of the Provincial Command in the interests of the organization during the period that unity is being consummated and to give branches more direct representation, divided the province into ten zones, each having a representative on the provincial command as follows:

Edmonton, James East; Peace River, C. Stevens of White Court; Red Deer, P. E. Kent; Huxley, S. Robertson; Calgary, R. B. Wilson; Crow's Nest, Peter Smith, Coleman; Lethbridge, G. E. Reber; Monitor, G. Ryehman, Vermillion; Medicine Hat, L. A. Sharland; Drumheller, Major J. L. Newman, Delia.

Keep Raw Materials Home

One of the resolutions petitioned the federal and provincial governments to arrange any leases on timber and mineral nature resources of the province so that it would be made compulsory for such raw material to be manufactured into the finished products in the Dominion of Canada. Dr. G. H. Wade, the mover of the resolution declared if such a policy was adopted it would relieve the unemployment situation to a large extent. At the present time, he said, raw material of the country's natural resources was being exported from the country and worked into the finished product in foreign countries by foreign labor.

The suggested proposals of the liquor commission to alter regulations insofar as country clubs are concerned by closing them at 10 p.m. instead of at 11 as at present and limit the admission visitors or friends to those residing outside a five mile radius of the club, were strongly disapproved of. The provincial executive was instructed to take the matter up with the commission.

Approve Coal Policy

The association recommended to the trustees of the canteen fund that this money be held in trust until an expression of opinion as to its final disposition be secured from the Canadian Legion in Alberta with the exception of an amount to be used in caring for emergency cases where a doubt remained as to eligibility of the case for S. C. R. treatment. Another resolution approved of the suggested plan of co-operation among the federal and provincial governments and the railways to market Alberta coal in Ontario. It was first suggested that a tariff be placed on United States coal to save the Canadian market for this was eventually changed as outlined.

The question of the next provincial convention was left to the executive committee.

CLARESHOLM, WARNER AND PINCHER CREEK SEATS MAY BE LOST

Edmonton, Feb. 24.—At a meeting of the full redistribution committee this morning, two maps prepared by the sub-committee on redistribution were submitted.

As previously forecast in the Herald, the first one provides for reducing the number of seats in the legislature from 60 as at present, to 48. The second map provides for more seats, that is, 49.

Both plans contemplate putting two seats each from Calgary and Edmonton cities, which now have five each. The meeting of the committee was secret, but bits of the discussion leaked out afterwards. It was attended by C. R. Mitchell, opposition leader, and George Mills Athabasca, the two Liberal members of the general committee, and also by Fred White, Calgary, Labor Hon. Alex. Ross was present for a time.

11,700 Population Basis
The map which seemed to meet most general approval was the one providing for 49 by eliminating or amalgamating eight constituencies and cutting two seats each from Calgary and Edmonton.

Red White Labor, objected to the latter, holding that the cities should not be cut to more than four seats each to allow proportional representation to work properly. The proposed plan of representation fixed in 11,700 per constituency, with a margin allowable for large areas in the north.

No final decision was reached by the general committee, and another meeting will likely be held before a report to the house. The constituencies affected include the proposed elimination of Warner, Pincher Creek, amalgamation of Didsbury and Olds, amalgamation of High River and Okotoks, elimination of Clareholm, Stoney Plain and Ribstone, and possible amalgamation of Hand Hills and Acadia.

Hear Devon Sillitto, the coming singer of Southern Alberta, in "Cherry Blossom."

The staff wishes to point out to parents, that pupils who have been regularly getting below 50 per cent have a very slight chance of passing the June examination unless they make a special effort during the next few months, and indeed those who have been getting less than 50 are in a very doubtful position. If you are allowing your children to put pleasure before work we hope you will take your full share of the responsibility for their failure.

SASKATCHEWAN'S NEW PREMIER

Regina, Feb. 26.—J. G. Gardiner is premier of Saskatchewan. The minister of highways and minister in charge of the bureau of labor and industries was the unanimous choice as successor to C. A. Dunning at a meeting of 1200 Liberals in the city hall last night.

The meeting was made up of sixty members of the legislature or candidates at the June elections, as well as the presidents, vice-presidents and secretaries of the constituency Liberal associations throughout the province.

Many were unable to gain admission to the auditorium.

Mr. Gardiner's name was placed in nomination by C. M. Hamilton minister of agriculture, who revealed that four ministers had been nominated at the afternoon session of members of the legislature and candidates at the June elections, A. P. McNab, minister of public works; J. S. Latta, minister of education; J. R. Gardiner and his own.

It had been decided unanimously to place only one name before the convention, and Mr. Gardiner's name was proposed and accepted with the greatest enthusiasm.

DIM LIGHTS ON PASSING

Edmonton, March 1.—In the future, it will be obligatory on drivers of cars in Alberta to dim their lights when approaching other cars, within 200 feet, on the highways, if amendments to the Vehicles and Highway Traffic Act, in a bill just brought in to the legislature, are adopted.

Motorcycles are excepted from the rule. Another rule to be made province-wide in the amendment is one giving the right-of-way at crossings to persons on the right hand.

Other proposed changes in the act are:

Mechanics or persons driving service car not compelled to take out a chauffeur's licence.

Number plates must follow the car when it is sold.

Forbids issuance of license to any person against whom damages have been awarded for negligence in driving and who has not satisfied the judgment.

Permits dealers using cars which they keep for sale in any way, other than for hire.

Provides that drivers of cars must stop when signalled by a police officer.

BREWERY MERGER, CALGARY

Calgary, March 1.—Control of the Silver Spray Brewery, Calgary, has passed into the hands of the Calgary Brewing Company, Ltd., through the purchase of the majority stock held by James Deed, president of the former concern, and Rene Besse, manager.

This announcement was made Monday morning by D. C. Betts, secretary of the Calgary Brewing Company, who refused to make public the sum of money involved in the transaction. Rumors had previously placed the amount at approximately \$450,000, but these rumors were not confirmed.

It is learned that the Silver Spray plant will be operated as usual for

the time being under the temporary management of Mr. Besse.

Many rumors of a huge brewery merger, in which all breweries in the province may be merged under one management, have been heard in Edmonton, Calgary and Lethbridge during the past couple of weeks. It is understood that shareholders of the Lethbridge Brewery were given a hint of such a possibility at the annual meeting here last in February.

"SAFETY FIRST" MEASURES SAVE GRANUM FAMILY

Granum, March 1.—What was nearly a case of accidental poisoning happened at the farm home of Robert Lawrie, twelve miles west of town this week, when a bottle of strychnine, kept for poisoned bait, was inadvertently knocked from its place on the top of a cupboard, but it was not thought that any dislodged particles had lodged near any food, only two tiny grains being found where the bottle fell, and no food being in proximity.

However, as a precaution, it was decided to throw out a pot of soup, that was being prepared for dinner, though it was not considered affected, or that any particles could have reached it. Yet the farm dog, which happened to lap a small portion as it was being disposed of, took convulsions and within fifteen minutes was dead.

PERDUE COMMITTED ON MURDER CHARGE

BUY AT HOME SPEND YOUR MONEY IN MACLEOD

Purchases representing thousands of dollars are lost to us, to our trade, to our clerks and employees, to our laborers and artisans, to all the people of Macleod who exist on the products of their work. This money, if spent at home, would help to recreate Macleod financially, give a wider field of activities in business, would be helpful to every resident of this town.

If we purchased regularly from local merchants, this money would circulate in Macleod in a welcome manner. Our merchants merit our patronage; it is to our interest, and the duty of all of us to encourage the local merchant. He is one of us, he lives among us, he has the right to be encouraged by us, he is anxious to have our custom, and to give us satisfaction. We should under all circumstances give him preference, price for price, quality for quality. And nearly always the price that our local merchant asks is, if we compare the quality, just as cheap as that of the outside merchant.

Never purchase merchandise by catalogues from foreign houses before assuring yourself that you cannot procure the same articles, of the same quality (and frequently of better quality) at the same price from your local merchant.

CAPITAL GOSSIP AND PROV. NEWS

Coal Movement to Ontario
Movement of 200,000 tons of Alberta coal to Ontario markets will be undertaken shortly under special arrangements made between the federal government and the governments of Alberta and Ontario. The Alberta government will bear one-third of the actual freight cost of the shipment over and above the \$7 a ton rate.

A New Record
A new mid-winter record for Alberta was set up at Taber, in the vicinity of Lethbridge, when Geo. Bedell, a farmer, seeded a five-acre plot of alfalfa on February 8.

Mildest Winter in 125 Years
The Peace River district, 400 miles north-west of Edmonton, has experienced the mildest winter shown in 125 years of records, according to J. A. McGregor, general manager of the E.D. and B.C. railway, who states that the ice on the Smoky River went out on December 9, and the ice on the Peace River went out on December 10. According to records which Mr. McGregor has this occurred once before 125 years ago. In the southern part of the province, in the foothills, ranchers state that it has not been necessary to feed a pound of hay to cattle, who have been able to feed off the range all winter. Amount of plowing has been done on the land in certain southern districts.

Theatre Attendance in Alberta
An average of approximately 100,000 admissions a week was the record of Alberta theatres for 1925, according to the report of the Provincial Secretary in this respect. The total admissions for the year were 5,250,703. The total amusement tax collected was \$193,331.14. The picture censor, Howard Douglas, reports that out of 5,013 reels of film censored, 4,735 were passed without change. Eight were rejected entirely. There were no appeals during the year. The total number of pictures censored was 1,587, of which as stated above, eight were rejected.

Homestead Entries
The number of homestead entries in the Edmonton land district for the first half of February total 65, an increase of 21 over the same month of last year.

New Branch Line North of Edmonton

A branch line of the E.D. and B.C. north-west of Edmonton is to be started the coming season, provided the legislature approves, according to an announcement made by Hon. V. W. Smith, minister of railways. The line is to run from a point on the E.D. and B.C. near Westlock, towards Fort Assiniboine, and 25 miles will be built this year.

Captain Amundsen Visits Alberta
Captain Roald Amundsen, world famous explorer, was a visitor to Alberta this week, stopping off at Jasper Park enroute East.

Colonize Big Ranch
An effort to colonize the Mendenhall Ranch, of 10,000 acres near Magrath, in southern Alberta, will be made, according to an announcement made in Lethbridge.

Total Coal Production
Total coal production for 1925 in Alberta was 5,883,394 tons, an increase of 679,000 tons over 1924, according to the annual report of the provincial mines branch. The report also shows that 1,148 tons of tar sands were taken from the Waterways district during the year. The total employment in coal mines was 11,175, a decrease of 885 over December of 1924.

Better Price for Beets
A better price for sugar beets by from 16 to 23 cents a ton will be given southern Alberta beet growers for the coming season, in accordance with a re-adjustment of prices which has been made by the parent company of the Raymond factory, the Utah-Idaho Sugar Co., of Salt Lake.

Re-Purchases Original Holding
C. S. Noble, the noted farmer of Nobleford, and founder of the Noble foundation there, has re-purchased his original holding of four sections in the Grandview farm at Nobleford. This was the farm which in 1915 established the world's record for production of wheat on 1,000 acres.

**NORTH RAILWAYS, TELE-
PHONES AND RESOURCES
MAKE HOUSE FIELD DAY**

Edmonton, March 2.—The new natural resources transfer bill, a debate on the proposed northern railway and telephone extensions, announcement of the government of its intention to "pass the buck" on the proposed Spray Lakes hydro-electric development to the federal government—these were the chief features of the Monday afternoon session of the legislature.

Resources Agreement
The text of the bill providing for the transfer of the natural resources to Alberta carries the full text of the agreement, already made public, and three additional preliminary clauses. In brief these are:

A clause providing that school lands are to be continued to be used

MACLEOD MARKETS

Prices by courtesy of J. J. Burke, manager of the Alberta Pacific Grain Company, Ltd., at Macleod. Quotations are for Wednesday afternoon of this week, and represent prices at Macleod:—

WHEAT:	
No. 1 Northern	\$1.22
No. 2 Northern	1.18
No. 3 Northern	1.15
Fort William, track	1.43%
Oats—No. 2 C.W.	\$.31
Oats—No. 1 Feed	.25
Barley	.39
Rye	.63
Flax	1.65

for the same purposes by the province as they are set aside for at the present time.

A clause providing that properties and lands in the national parks may be used for other purposes than those set forth in the agreement upon consent of both the province of Alberta and the Dominion of Canada.

A clause protecting the rights of the Hudson's Bay Co. in the selection of remaining lands, and precious mineral rights now in litigation, in the same manner as provided for in the original transfer by the company of Rupert's Land to the Crown.

Spray Lakes Hydro

In "passing the buck" to the Dominion on the proposed Spray Lakes hydro-electric development project, the government simply announced it would have a resolution put on the order paper and furnished the text of it to the newspapers. This simply sets forth that as there is an increasing demand for development of this project, the Dominion government "should assign to the province of Alberta the said water power site in order that the province may either develop the site as a public utility or effectually control and regulate the distribution of power in the interest of the people of the province."

This simply means that the province refuses to say whether it will develop the project itself or allow a private company to do so until the Dominion government gives the province the water power rights. The Dominion has already given the province the first choice of saying whether it wants to develop the project but refuses to grant the right until the province says so, or says it will allow a private company to do the construction work.

Smith-Dechene Clash

Mr. Dechene got into a clash with Hon. Verner Smith, minister of railways, over some statements by the minister concerning alleged wastefulness of the old Sifton government in guaranteeing 350 miles of railway when the actual mileage to Fort McMurray was only 300 miles with all sidings, stub lines, etc., added in.

Mr. Smith said the old government did not know what to do with the extra forty-one miles of guarantee so projected the stub from Lac la Biche to Flamingdon which Mr. Dechene was asking for completion in his resolution. Though the full amount of the guarantee of \$20,000 a mile had been paid to a total of \$820,000, the stub line of 41 miles was never completed except for grading. Engineer's reports, said the minister, showed that to lay the rails and complete the line would cost another \$25,000.

The Beaver River member hotly disputed this cost report and also disputed statements of this minister that there was practically no settlement along the first thirty-five miles of the line. He would yield, however, he said, to the plea that the government did not have the funds to finance the line at this time, and accordingly withdrew his resolution.

A Compromise
This debate came to a compromise finish when government introduced a substitute amendment. This provided for an investigation of the possibilities of long distance telephone communication with the areas named but omitted Mr. Giroux's demand for immediate construction.

The government also objected to statements in the whereas clauses of Mr. Giroux's proposals which stated that the government telephone revenue had increased to a million dollars a year, that it had large stocks of telephone material and equipment on hand unused, and that it had spent a lot of money establishing long distance communication with the United States, Montreal, Ottawa, New York and even Cuba.

Replying to these assertions in a lengthy statement, Hon. Mr. Smith, minister of railways, asserted that the only extra cost of the long distance communication established to the east and the U.S. was \$1,900 for some copper wires; that two "repeaters" which had been installed at a cost of \$5,000 each were more for the benefit of the provincial lines than for the long distance service to which they were an aid.

Greenfield Applauded

Other participants in the debate included R. C. Marshall, Liberal Calgary; J. C. Bowen, Liberal, Edmonton; and J. A. Brown, Liberal, former premier, Herbert Greenfield member for Peace River, who was roundly applauded for his first speech in the house. The tenor of the government speeches was that the government was desirous of establishing long distance telephone communication with Peace River and that with the opening of a through highway to the district from Edmonton this year, the subject of establishing a long distance line along the highways would become feasible, and the government would proceed at once to make an investigation.

After some fencing with Mr. Giroux, the latter, by agreement adjourned the debate to confer with the government on the subject of framing a joint resolution agreeable to all sides.

Mr. Dechene also had a resolution on the order paper asking the construction of a branch line from a point near Fort Assiniboine but as the government had already announced its intention of building a twenty-five mile extension in this direction, withdrew the resolution.

The fourth resolution of the day was one by Russell Love, Farmer Wainwright, petitioning the Dominion government to enact legislation which would give the provinces power to regulate the sales of shares of Dominion companies. C. S. Noble, Liberal, Medicine Hat, seconded this resolution which was unanimously adopted after Premier Brownlee had said that a similar resolution was passed last year but the trouble seemed to be reluctance of certain officials of the federal department of state to so-called "blue sky" legislation; that the Saskatchewan house had passed a similar resolution again this year and the Manitoba house was preparing to pass one also. Mr. Brownlee said another concerted effort would be made to induce the federal government to pass such legislation and

REGULAR MEETING TOWN COUNCIL

Minutes of regular meeting of Town Council, held in Town Office, on evening of March 1st, 1926.

Mr. Alex. McLeod handed in his Declaration of Office.

Present Mayor J. W. McDonald; Councillors A. T. Leather, C. W. Stevens, W. A. Day, F. Morris A. McLeod.

Leather—Day—That Minutes of 15th and 16th February, as read, be adopted.—Carried.

Hudson's Bay Company, re stones breaking plate glass windows.

Tender by Harvey Smith for purchase of lot 19 on the north side of 24th Street, he to erect a gasoline station.

Report of Sanitary Inspector.—Filed.

Day—McDonald—That building on lot 17 South 25th Street, be rented to Mr. Tweed at \$5.00 per month, subject to one month's notice.—Carried.

Day—Leather—That \$10,000 be paid over to the Provincial Treasurer to the credit of the Town of Macleod Special Reserve Account, subject to the direction of the Board of Utility Commissioners as to with drawal.—Carried.

McLeod—Stevens—That Councillor J. Swinerton be Deputy Mayor for quarter ending 31st March.—Carried.

Leather—Morris—That \$50.00 the balance owing on purchase price of lot 5 North 27th Street, East 5th Avenue, by S. McCord, be transferred from credit in Municipal Tax account to Town lots sales account.—Carried.

McLeod—Day—That Mr. W. Dunbar be appointed as a Special Constable for the purpose of assisting the Chief of Police in care of the Fair Grounds.—Carried.

Leather—Day—That the quarter section known as Industrial Place (Langdon quarter) and that piece of land east of P. Burns slaughter house, be leased to Mr. E. Ringland for five years, he to break all breakable land on Industrial Place this year; Town to get one quarter of all crops, delivered free of charge at the elevator in Town, subject to water right being granted to others and subject to title.—Carried.

Report of Superintendent Oliver: Gentlemen: In regard to the interruption in the electric service on Friday evening last, I wish to say that this was caused by the old engine laying down on us while the Crossley was undergoing repairs.

The trouble with the Crossley was that at 4 o'clock Friday morning the cylinder head split open, causing her to go out of business, and the installation of the new head took some considerable time, as things did not fit exactly as they should have done.

We have had (and are still having) considerable trouble up the river keeping ourselves in water. It has been a fight both night and day, owing to ice, slush, etc., and it is quite evident that something of a permanent nature will have to be done up there this year.

I would also like to know the pleasure of the Council in regard to a car for this Department, as it appears necessary to have a new one this year.

(Signed) "E. H. Oliver."

Day—McLeod—That the Superintendent's report be referred to the Water and Light Committee with power to act, re purchase of motor car.—Carried.

Leather—Morris—That we adjourn till next regular meeting.—Carried.

Minutes of Special Meeting called by the Mayor, held in Town office on afternoon of March 2nd, 1926.

Present Mayor J. W. McDonald; Councillors F. Morris, A. McLeod, J. Swinerton, W. A. Day, C. W. Stevens.

Morris—Day—That lot 19 on the North side of 24th Street West 5th Avenue, be sold to William Hoodless for the sum of \$250.00 taxes to be paid for the year 1926, commencing January 1st 1926, on Town Assessment. Building erected to include a gasoline filling station, value not less than \$1700.00, to be completed on or before June 1st 1926. Town improvements to be given on application, in accordance with regulations, and right of proper approach to be granted on 24th Street, to be constructed by the Town.—Carried.

that, if it still stood firm, the provincial government proposed to withdraw the sale of shares act inasmuch as it was unfair to have it operative against companies with provincial charters while others with Dominion charters did not come under its provisions.

BREWERY MERGER

Calgary, March 2.—Confirmation of the rumor that negotiations are under way for an amalgamation of the Lethbridge Breweries, Ltd., and the Edmonton Brewing Company, the oldest brewery in the capital, was furnished this afternoon by Emil Sick, manager of the Lethbridge Brewery.

The merger has not yet been consummated.

Mr. Sick states that the idea of the merger is to reduce improper competition so that the breweries can meet the liquor commissioner and the public on a better basis.

Clive Betts, manager of the Calgary Brewing company issued a statement today that the deal whereby the Silver Spray Brewery company was acquired by the Calgary Brewing company has nothing to do with any other merger of breweries now under consideration in Alberta.

Snappy vaudeville work by the Americans visiting Japan—in Musical Comedy "Cherry Blossom."

At times the unemployment situation becomes serious, and then the boss steps in again.

He is middle-aged if he thinks a pigtail tied with a bow of ribbon prettier than an ankle.

The SMP Roaster is a fine time saver. You put
the roast or fowl in the oven. The roaster does
the roasting, basting, roasting to perfection. It roasts with
very little shrinkage, thus saving dollars every year.
None of the tasty meat juices are lost; all the rich
flavor is retained. Besides you can buy cheaper
meats, for it makes cheap cuts taste
like choice ones.

The clean fitting cover keeps all
the cooking odors and the grease inside the
roaster—the smell of cooking doesn't fill
the house, and the oven is kept sweet
and clean. Best of all, it cleans out in
a jiffy after the roasting. These are
splendid virtues. Price \$10. to \$15.00
according to size and finish. Sold in all
hardware stores.

Grape Fruit for One Dollar.

THE WHITE HALL

LOCAL AND PERSONAL NEWS

Major W. Stedman, of Calgary, is the guest of Mr. and Mrs. T. H. Stedman.

Mrs. J. Peard is visiting her sister Mrs. R. G. Mathews at Kalispel, Montana.

Ralph Nelson, of the Bank of Commerce staff, is suffering from an attack of measles.

Mrs. J. B. Wilson and children and Dr. Lillie and Mrs. Lillie, of Blairmore, were guests of Mrs. C. D. T. Beecher over the last week-end.

J. Peard and his son H. Peard, returned to Macleod a few days since from England, where they had been visiting relatives and friends.

Mrs. W. McRary, of Crossfield, who has been the guest of Mr. and Mrs. Arthur Young for the past few days, left on Tuesday of this week for her home in the north.

W. O. Hoodless, of the Speedway Garage, has completed arrangements for the building and operation of a gasoline filling station to be located on the corner of 24th St. and 3rd Ave. Mr. Hoodless expects to have the station in operation by the first of June.

Macleod visitors to Lethbridge last Friday and Saturday to attend Sir John Martin Harvey's presentation of "David Garrick" and "The Only Way" at the Majestic Theatre in that city were: Mr. and Mrs. (Judge) A. M. MacDonald, Mayor and Mrs. J. W. McDonald, Mr. and Mrs. J. D. Matheson, Mr. and Mrs. T. B. Martin, Dr. and Mrs. R. Elder, Mr. and Mrs. R. Cunningham, Mr. and Mrs. Arthur Young, Mr. and Mrs. R. A. Clement, A. T. Leather, Mrs. Hastie, Mrs. A. F. Grady, Mrs. (Dr.) Kennedy, Mrs. R. M. Reid, Mrs. Watchorn, Mrs. M. Christison, Miss Camies, Miss T. Thomas, Miss A. C. Bishop, Miss E. H. Atkinson, W. Walshe and Ernie Charlton.

A fire which might have resulted in very serious consequences to the town of Macleod, broke out Saturday at noon at the home of W. H. Wilkinson on First avenue. How the fire started is a mystery, as it originated in a small room attached to the back of the house and used by Mr. Wilkinson as workshop. The fire brigade was on the job within a few minutes of the alarm being sent in, and by their prompt action were able to confine the fire to the workshop and the back kitchen adjoining. Not much damage was done to the other part of the house except by water in one bedroom and the kitchen, as fortunately the fire was on the east side of the house. Had the fire started on the west side, nothing could have saved the whole house going up in flames as well as adjoining properties, as the wind was blowing a regular hurricane just at the time, in fact the worst wind storm Macleod has experienced for a long time, and great credit is due the fire brigade for their splendid work in controlling and subduing the fire under such trying circumstances. There was an extra good pressure of water which helped the firemen considerably in their work. The damage

STRONG BASEBALL ORGANIZATION FOR 1926

The baseball fans of Macleod met in strong force Wednesday night for the purpose of organizing a Club for 1926. There was a large crowd present when Vice President Frank Walsh called the meeting to order. If the enthusiasm of the meeting augurs anything, the success of Baseball in Macleod for 1926 is certainly assured. Mayor McDonald and President Farnet, of the Board of Trade, and a great number of the business men were present at this meeting and are taking active part in the work of the executive of the Club, and the citizens of Macleod and district may look forward to seeing some real baseball this season. The honour of winning the Ward-Cavanaugh Cup last year by the Junior Team was reflected in the meeting by a determination to put up such play this year that the Cup will remain in Macleod. This Cup carries with it the Championship of the Province of Alberta. The financial statement presented to the meeting for the year 1925 showed a balance of \$29.25 in the treasury to start the year 1926. Votes of thanks were passed to the officers of last year, and short congratulatory speeches were made by Mayor McDonald and Dr. Farnet.

The Officers elected were: Hon. Presidents—Judge McDonald and Mayor McDonald; President—Frank Walsh; Vice President—E. A. Oliver; Secretary—Treasurer—Dr. O. F. Farnet. Committee—Joe Marks, J. B. Sutherland, Al West, Manager—W. O. Long, Coach—Spud Murphy. It was also decided to have a Senior League of 3 teams, and the following were appointed as Captains: Joe Marks, Neil Dillingham and Jack Paulson. These captains will arrange their teams at a later date.

It may be that rulers make war, but only the people stay mad at one another.

The city affords few thrills to compare with that of umpiring a game between two village teams.

How earnestly the nations plan to make themselves more decent than they think they will be.

The happiest country is the one with the greatest number of things listed as necessities.
